

## **ANNUAL REPORT 2021-2022**

It's indeed my great pleasure and privilege to give a brief account of accomplishments of our school for the last year. As a result of sustained and ceaseless efforts by the management with the service of experienced, dedicated and qualified staff, unending co-operation and support of the parents, our school has been able to make good strides year after year.

Before I acquaint you with the achievements of the school, I would like to say a few words about the significance of education.

Education helps in acquiring knowledge which enables you to distinguish between right and wrong, It will light the way to heaven. It not only adorns one's character but makes him morally sound, also helps him to be in pace with the changing world. It is the best gift a parent can give to his child which proves an everlasting wealth for him.

We are proud in the first place that our institution is facilitated with a vast play ground ,unpolluted surroundings good infrastructure, serene atmosphere with a lot of greenery and fresh air around which creates a mood for studying.

Our vision is to maintain standards that have been set to encourage creativity and value new thoughts and learned helping hand to the slow learners.

A school is a place which creates a cheerful happy atmosphere, which reflex the spirit of its students and this comes about automatically if they are dealt with care, concern and love by their teachers. Here the pupils are guided constantly by the teachers for their all round development.

Our meticulous planning for the academic session has facilitated the session faster than we had foreseen.

Right from its inception, I am proud to say that the school has escalated to great horizons of success and today it is seen as one of the best institution of this locality. It has become synonyms with academic excellence and also school which creates responsible citizens. We are grateful to our chairman Mr.Tajuddin Sir for his valuable guidance, support and encouragement to make all this possible.

From the humble beginning we made in 2016 having crossed many measurable milestones, today our school has become the most sought one in this locality and soon will become most sought in the city. I

take this opportunity to express my gratitude to all our Oxford Family whose vision, wisdom and missionary zeal inspired all stakeholders to work with us with passion and commitment. We also remember with gratitude everyone of those, every parent, every teacher and every student who did their best to build this edifice of excellence.

I believe my role as an educator is to guide and nurture the next generation to establish skills to achieve health, respect, prosperity and fulfillment.

The management, staff and I are passionate about students being empowered to succeed and for this I keep up with latest trends and research and be an active vpartner in the schools professional developepment.

I am often asked a question....what makes a good school? Is it the teachers? Or is it the students? Or is it the curriculum? Or the facilities , the principal or the parents? The obvious answer is ofcourse a combination of all these and I am proud to say that at Oxford International School we have the right combination to a succesful school. The world is defined by the people who live in it. At Oxford International School we creat a challenging environment where young children have the confidence to learn, the freedom to fail where they can discover what really matters to them and realize their potential for the coming years of 21<sup>st</sup> century. With Global Education and other International syllabi being introduced, many parents are in a fix to choose the right curriculum for their children. The CBSE syllabus is considered to be a holistic one which enables any child to compete globally. Some parents approached me asking for IB curriculum. Yes, in the coming years we are planning to introduce it in our School.

I would like to quote Dr. APJ Abdul Kalam who said, "If a country is to be corruption free and become a nation of beautiful minds, I strongly feel there are three key societal members who can make a difference, they are the father, the mother and the teacher."

Now if that is the role of a teacher or educator, dear parents your children are in the right hands. Our students are trained to be indivudual learners with moral values. The school is associated with Schooler(KG to PG) as our Digital Partner and we have choosen the best publications as Text Books so that our students will have the right content with the best descriptions.

We provide our students with various co-curricular and extra curricular activities such as dance, music, karate, yoga, art and craft and skatting. Throughout the year we conduct various competitions to bring

out the innate talents in our students. We are associated with Ramakrishna Mission for awakened citizenship program for classes VI , VII and VIII. This year in view of the pandemic we encouraged students to take part in online competitions like drawing, painting, handwriting, solosinging, animal photography and best-out-of waste.

The experienced board members at Oxford International School have brought out the best policies, methods and reforms in education field which has made our school unique.

From the morning assembly to the last bell our students are engaged with the best practices that allow them to explore and enjoy their learning process. With lots of innovation in technology, information is available in abundance on one touch on your smart phones. But providing the students with the right information and content also has become a major challenge. We play the role of a Guide in this area. This year to encourage children towards the discipline and positive attitude every month second saturday we arranged motivational talk by dignitaries through online platform. Our endeavour at Oxford International School is to make our students confident and dream for their future. We believe that if you can dream it you can do it.

A word for the parents who have entered the apple of their eye to us..They are in good hands in the warm friendly stimulating environment at Oxford.

We provide plenty of opportunities to develop self-discipline, self-respect and a sense of responsibility among t he students. For smooth and efficient functioning of a school a continous interaction session is conducted between a parent and teacher after every assessment to discuss the progress and development of child. To start with the academic calender the 2021-22 the school function from April 6, 2021 to March 19, 2022. Four periodic assessments and two summative assessments are conducted yearly to assess the child's performance in academics. Firstly the investiture was held on september 9, 2021 due to the pandemic once the session was opened to High School, where the captains and vice-captains and also house masters in various disciplines were elected for sharing responsibilities and to acquire leadership qualities. We are indeed very proud for our first batch of NCC cadets have appeared for exam.

We are also very proud to announce the cent percent result in the past 2 batches who succesfully stepped into their higher education by completing CBSE Grade 10 Board exams..We congratulate each one of the students and subject teachers. We could achieve all these only through the kind cooperation

of the parents and expect the same kind here after by which we can set standards in education of the school.

With this I conclude my report by thanking all the esteemed guest for having accepted to be among us despite their other engagements.
